

## Soudaseal CL

Soudaseal CL is a crystal clear SMX® Polymer sealant/adhesive designed for applications where transparency is essential without compromising performance. It remains permanently elastic after curing (+/-25%) and provides excellent adhesion to both porous and non-porous substrates, including glass, pretreated timber, metals, vinyls, and stone. Free of solvents and isocyanates, Soudaseal CL does not crack, shrink, or discolor after curing. It even adheres to moist surfaces.

### Meets:

- ASTM C920, Type S, Grade NS, Class 25
    - Use T, NT, M, A, G\*, and O\*\*
  - Federal Specification TT-S-00230C, Type II, Class A
    - \* Not recommended as a glazing sealant.
- \*\* See Technical Data Sheet (TDS) for recommended substrates.

### Instructions for Use:

Ensure substrates are clean and free of dust and grease. Full bonding strength develops several days after application.

For complete product information, consult the technical data sheet at:

[www.soudalusa.com](http://www.soudalusa.com)

### Limited Warranty Notice:

Soudal provides a limited warranty on its products. For the complete warranty terms, refer to the product data sheet available from Soudal or your local distributor.

### Disposal:

Dispose of contents and container in accordance with local, regional, national, and international regulations.

### Caution:

Uncured adhesive may irritate eyes. In case of contact, flush immediately with water and consult a physician. Avoid prolonged skin contact.

**FOR PROFESSIONAL USE ONLY — KEEP OUT OF REACH OF CHILDREN.**
