

Soudasil HT1

Soudasil HT1 is a high temp red 100% acetoxycure silicone that withstands temperatures as high as **535°F (279°C)**.

It stays permanently elastic after curing, shows no shrink, and is **fully UV resistant**.

Soudasil HT1 adheres extremely well to **all usual surfaces** and is the perfect solution to all your high temperature sealing needs.

Meets:

- ASTM C920, Type S, Grade NS, Class 25, Use NT, A
- Federal Specification TT-S-00230C, Type II, Class A
- FDA Regulations 21 CFR Section 177.2600: “Rubber articles intended for repeated use”

Instructions for use:

Substrates should be clean and free of dust and grease.

Builds up its bond strength several days after installation.
