

# Sprayable Insulation Foam

**NOW IN STOCK IN CANADA**

**SPRAYABLE INSULATION FOAM** is a ready-to-use, single component, self-expanding polyurethane spray foam for insulating all types of substrates to improve thermal insulation and reduce the risk of thermal bridges.

Equipped with our patented Genius Gun applicator system for maximum control and single-handed application. With accompanying spray nozzle, **SPRAYABLE INSULATION FOAM** can be used for horizontal and vertical application to insulate irregular surfaces and hard to reach places.

**Made in Belgium**

**Target Sectors:**

Drywall / Insulation  
Plumbing/HVAC/Electrical

General Construction  
Industrial / Transportation  
Woodworking / Kitchen
